Maverick Business Adventures
1620 Mariner Dr
Sebastopol, CA 95472

Dear Tim,

I am writing to thank the Maverick team and to let you know the seminar in Aspen directed toward youth was a great eye opener for my kids from the True Media Foundation. I am with young people a big part of my day and mentoring to them on how to produce *media that matters*, but the underlying fact is I am showing them ways of transitioning into the real world. Your message in your presentation was powerful for my group, they finally get it! We've had discussion about the Maverick presentation and they are inspired to think out of the box. Personally it has made me think of ways to move my passion into a more prosperous path enabling me closer to my goals. I hope Maverick continues to speak to young people and combining the message of financial opportunity, social value, and how it can become a their legacy.

Best regards,

Christopher Tribble
